Celebrating 25 years of Open House

From places of worship to industrial complexes, government buildings or Pavilions, doors opened to the public in the most famous architecture festival in London for the past 25 years.

Argentina’s Official Residence is one of the very few and oldest diplomatic residence that participate in Open House London since 2006.

“I will like to highlight Open House Buenos Aires which took place in October last year as an example of a successful architectural exhibition that would replicate in other cities of Argentina, like Rosario in May 2018” said the Ambassador in his introduction.

Argentina is now part of Open House Worldwide with the participation of Buenos Aires and Rosario.
